

Global Weld Management (GWM App)

A Cloud Software Application (SaaS)

Simplify compliance - Amplify performance

Welding is not all about Welding

You already know how much effort it takes to keep a project moving — designing, planning, assigning welders, defining inspections, managing approvals, and staying on schedule.

You're good at what you do. But the tools around you — are they really keeping up?

Most welding software helps you write (p)WPS, PQR, and welder certificates — and that's fine.

But success isn't just about forms and templates.

It's about connecting people, processes, proof, data, and performance.

Too often, experts work in silos. Documents hide in inboxes. When an audit arrives or a client requests proof, the search begins — along with stress, lost time, and risk to approvals and costs.

It's not that the team isn't capable. It's that the process isn't connected.

Step 1: SEE IT IN ACTION

Schedule a free demo or trial

Step 2: ADD WELDING DATA

We help to import and get you started

Step 3: START TEAMWORK

Effective – Compliance – Efficient

That's why GWM App:

In less than 2 hours	=	Amplifying efficiency
Increase performance	=	Engage team & drive results
Operate clarity	=	Manage libraries together
Quality Management	=	Centralize control & visibility
Reduce stress	=	Compliance made simple
Evidence	=	Access anytime / anywhere
Ready to work	=	Approve welder in minutes
Reminder	=	Stay on track automatically
Project compliance	=	Generate weld maps (fast)

Enhance your Business

One Voice	=	Unite all locations
Presentations	=	Boost Sales
Build trust	=	Invite your customers
Language	=	13 options to collaborate
Global access	=	Connect across borders
Workflow	=	Engage testing labs
Supply Chain	=	Integrate suppliers
Digital Traceability	=	Strengthen audit readiness
Profit Center	=	Make welding pay off
